

LABOR AND CAPITAL COMBINATIONS.

A new labor organization, to be known as the American Labor Union, is being formed at Chicago. It is said that it will be affiliated with the American Railway Union, and both will be controlled by the same men. It is designed to include in one organization all the working people of the United States. Should this be accomplished, the business of the whole country can be brought to a full stop at a stated time by the officers of the Union.

An organization of this character, unless controlled by wise heads, might become as despotic as the Pullman Company, the railroad combinations or any organization of capital that has been formed in the United States. It could order a strike with or without just cause and enforce its terms, however arbitrary and unreasonable the terms might be.

Evidently that is not what the great masses of the people desire. They do not want aggregations of capital nor organizations of labor to rule the country. The people know from sad experience what the money power has done, and the labor power might be as selfish. What the country wants is legislation that will make no distinction between capital and labor, but place both on an equal footing. Capital should be given no privileges that are not accorded to labor. If one is permitted by law to form combinations to keep up fares and freights on railroads and to advance the price of sugar, coal and other necessities, then labor should not be outlawed for organizing to enhance its market value.

It is charged against Debs and other labor leaders now on trial in Chicago that they conspired to obstruct interstate commerce, and under the Anti-trust law that is an offense against the Government of the United States. Conspiring and combining to keep up fares and freights is certainly obstructing interstate commerce; yet none of the railroads in the Traffic Association have been prosecuted, and none of the officers of the Association have been arrested. The Sugar Trust was organized to plunder the people, by keeping up the price of sugar. Its President admits before a Congressional investigating committee that the Trust contributed liberally to Democratic campaign funds in New York and to Republican campaign funds in Massachusetts, but no proceedings have been instituted against it under the Anti-trust law. The Twine Trust, organized to fleece farmers by charging 16 cents a pound for twine that costs 4 cents per pound, has been permitted to carry on its system of robbery with impunity and so have the thousand and one other combinations organized to plunder the people. If these trusts and combinations openly violate the law without hindrance from State and Federal authorities, why make an exception of labor organizations?

The fact is the men who compose the labor organizations have but themselves to blame for the distinction made between organized capital and organized labor. They have approved the laws that make the distinction possible and endorsed those who enacted such laws. For years the Government has been controlled by the money power, which by its methods of assisting Democrats in Democratic States and Republicans in Republican States had friends enough in both parties to maintain its supremacy at Washington whether Democrats or Republicans were in the ascendancy. Men who earn their bread by the sweat of their brows are to a great extent responsible for this condition of affairs. They comprise a majority of the people and if they use the ballot judiciously impartial legislation and administration of the laws will follow and equal justice will be meted out to all.

INVESTIGATING THE STRIKE.

Debs and other labor leaders were arrested at Chicago for interrupting interstate commerce and ordering a strike. The telegrams sent out by those leaders were produced in evidence against them. Yesterday the contempt cases, in which they are defendants, were continued until September 5th and the bail of the prisoners was reduced from \$16,000 to \$7,000. Counsel for the defendants asserted in court that the roads entered into a conspiracy to sustain the Pullman Company in their fight with its employees and the Supreme Court must decide whether the men were not justified in resisting such a conspiracy when the lower courts were silent regarding it.

The charge may be unfounded and an attempt is being made in Congress to ascertain whether it is or not. This attempt is made by Senator Allen of Nebraska, who introduced a resolution directing the Attorney-General to transmit to the Senate full copies of all correspondence between the Department of Justice and all railroads centering in Chicago between June 1st and the present time. Allen asked for immediate consideration of the resolution, but Platt objected and it went over.

Should this resolution be adopted it will throw much light on the assertion of the Chicago lawyer, who declared that the railroads had conspired to assist the Pullman Company. The people would like a thorough and impartial investigation of the strike and its causes. If the telegrams and instructions sent out by Debs are given

to the public the telegrams sent to the Attorney-General by the railroads and the instructions given by that functionary to United States Marshals and commanders of United States troops should also be made public. There should be no discrimination in this matter. This is a Government of the people. The citizens are the sovereigns and they have a right to know what their servants have done in their official capacity. The law should make no distinction between individuals. If the instructions issued by labor leaders to organizations of which they are members are offered in evidence in courts let the instructions issued by the Attorney-General to Marshals and Military officers be submitted to the people, who are the supreme judges.

Equal justice to organized capital and organized labor should be the rule, then neither will have just cause for complaint. The business of the country, which was not in a healthy condition before the strike, was completely paralyzed by the blockade and whatever action on the part of capital or labor tended to cause that strike should be made public, that like occurrences may be averted in the future.

CONGRESSIONAL PROCEEDINGS.

Allen Calls for Interesting Correspondence.

WASHINGTON, July 25.—The morning hour in the Senate was devoted to routine business. Allen presented a resolution directing the Attorney-General to transmit full copies of all correspondence between the Department of Justice and railroads centering in Chicago from June first to the present time. Allen asked immediate consideration, but Platt objected and the resolution went over.

At 1:05 Caffery resumed his speech of yesterday, arguing the justice of a duty on sugar. Daniels followed.

At 2:30 the Senate went into executive session and a Democratic caucus will probably follow.

The Senate will accede to the request of the House for another conference on the Tariff bill and its conferees will return to a meeting with those of the House untrammelled by any specific instructions whatever. This was the conclusion of the Democratic Senatorial caucus which adjourned *sine die* a few minutes after 5 o'clock to-day after a two days' sitting.

While the caucus did not commit itself to any definite line of policy in so many words the conferees feel with their Democratic colleagues that they understand what majority they desire and they believe this to be that they shall stand substantially for the Senate bill. This is not an individual preference of many of the Democratic Senators but it represents the opinion of most of them as expressed in caucus as to the only practical course open to the Democrats who think the present Congress must pass a tariff bill of some kind whether it be what they prefer or not. In other words, the result of the caucus which has just closed is simply a reasserting of what was known when the three days' caucus was closed last March; that it is impracticable to pass any tariff bill through the Senate which does not meet the demands of the so-called conservative Senators and Louisiana Senators. It became evident soon after the caucus convened to-day that the resolution of Senator Jarvis to send the bill back to the conference without instructions was the only course open to the caucus.

Senator Gorman devoted himself to a verbal statement on the parliamentary status of the bill.

A majority of those who participated in the caucus came out when it adjourned with their faces wreathed in smiles and most of them indicated by their actions that they believed that they had inaugurated a line of policy which would secure the passage of a tariff bill. Some of them who would say nothing as to the proceedings announced themselves as confident of the ultimate success of the bill.

The Senate to-day confirmed the nomination of Wm. A. Lowery as Registrar of the Land Office at Marysville.

The Demands for Silver Raise Its Price.

New York, July 25.—The Evening Post's London cablegram says silver was a farthing higher at 23 15-16; Mexican dollars at 23 7-8 were in demand to use in connection with the Korean war. Silver was also wanted for the French mints and prompt shipments to the India council on drafts were well taken. Forty lacs will be offered next week.

Stubborn to the End.

MEMPHIS, Tenn., July 25.—Henry Bennett (colored) was hanged here to-day for the murder of his wife in May, 1893, for deserting him. Bennett died

FIRE IN WASHINGTON

Firemen—Buried Under the Falling Walls.

WASHINGTON, July 25.—Three firemen were killed outright, over two hundred horses were burned to death, a dozen persons seriously injured and a property loss of almost a quarter of a million dollars entailed by a fire which early this morning destroyed the Knox stables and warehouses, the Adams Express stables and several small buildings.

One hundred and fifty horses in the Adams stables were rescued. The rear wall of the Adams building fell, imprisoning inside a number of firemen who were working with the hose. Several streams were quickly turned on the burning mass that had fallen. As soon as the bricks were slightly cooled a score of firemen and policemen rushed into the tottering building. They emerged dragging the bodies of three helpless firemen. The rescuers were all but overcome by the heat. The firemen killed were buried under the falling wall. The screams of the imprisoned horses that perished in the flames were horrifying.

Asking for a Reduction of Assessment.

SACRAMENTO, July 25.—D. A. Bender, Secretary and Treasurer of the Carson & Colorado road, appeared before the State Board of Equalization to-day in regard to the assessment of that road. He said the road was not earning a dollar, the receipts last year only amounting to \$31,000 on an investment of three millions. Three hundred miles of road were operated for the benefit of a scattered population of 5,000. He asked that it be assessed at a rate of \$1,500 per mile instead of \$2,100, as last year. The earnings of the road had fallen off this year 33 1/3 per cent from last year.

George Fletcher, Secretary of the Nevada County Narrow Gauge Railroad, said the strike interfered with work in which people had been largely investing in the county. In many cases they had stopped work for the remainder of the year. As a consequence business was dull and the earnings of the road decreased.

Persuade Them to Go.

SAN FRANCISCO, July 25.—A meeting of a committee representing the Japanese residents was held at the Japan Consulate to-night and decided to make an immediate effort to raise \$10,000 to assist the Japanese Government in carrying on the war with China. Further than that the San Francisco Japanese are prepared to form a brigade of 4,000 men and arm themselves with American rifles and go to Japan at their own expense if their services should be needed in the Korean conflict. All the members of the Japanese colony will be assessed to raise funds if the war goes on.

The Daily Cost of the State Militia of California During the Strike.

SACRAMENTO, July 25.—In an interview this afternoon with Governor Markham he expressed the belief and hope that the great railroad strike in this State would end peacefully in a few days and that the State troops would return to their various homes. The Governor estimates the cost of the strike to the State at from ten to fifteen thousand dollars per day. He says that the proper way to liquidate this debt is by legislative appropriation.

The Chinese War.

YOKOHAMA, July 25.—The Japanese troops in Korea have begun a forward movement against the position held by the Chinese. A battle is expected.

WASHINGTON, July 25.—Secretary Herbert has issued orders that the Petrel and Concord, now doing patrol duty in the Behring Sea, proceed immediately to the Chinese station, because of the threatening aspect of affairs in Korea.

The A. R. U. at Oakland Remain Firm.

OAKLAND, July 25.—The local lodge of A. R. U. held a meeting here this afternoon at which between 500 and 600 members were present. By an almost unanimous vote it was decided to continue the strike at least until the Southern Pacific Managers should signify a willingness to take the men back in a body.

An Awful Mistake.

BIRMINGHAM, Ala., July 25.—John Collins, a market gardener, thought he heard thieves in his garden last night and started to investigate, he was followed by his daughter Maggie. Mrs. Collins heard the two and supposed them to be thieves and aroused her son William who got a gun and shot both the father and daughter, the former is dead and the latter dying.

Arrested for Bribery.

CHICAGO, July 25.—Mrs. Warren Springer, wife of a prominent millionaire, was this morning held to appear before the Grand Jury in \$5,000 bonds on a charge of attempting to bribe two jurors in a condemnation suit in which her husband was interested.

Officers Exceed Their Authority.

COLORADO CITY, Col., July 25.—Detectives from Denver to-day arrested John Malline, Herman Rubbake and O. H. McKinney of Colorado Springs for complicity in tarring and feathering Adjutant General Tarney. They were held in bonds at \$5,000. Before bonds could be furnished Sheriff Bowers of Colorado Springs demanded the custody of the prisoners and took them to the County Jail. Sheriff Bowers asked by what right the Denver detectives made the arrests in El Paso county and was informed that they had been specially authorized by Governor Waite to act in the Tarney matter. Legal complications may grow out of the matter.

Republicans of Illinois in State Convention.

SPRINGFIELD, Ill., July 25.—The Republican State Convention is in session here. The question of nominating a United States Senator was laid on the table. The platform states that the Republicans believe the restoration of the Republican party to power in the government of the country would promote the general welfare of the people and renew a condition of general prosperity. Protective tariff was endorsed and the Wilson bill denounced. The Democratic party was charged with being solely responsible for the unusual and unnatural conditions now existing between capital and labor which have led to lawlessness, bloodshed, interruption of business and brought misfortune to all. This state of affairs is a natural result of false economy, theory and a vacillating policy and hopeless incompetency of the Democratic party, and to remove the evils thus created it is necessary that Republicans should be restored to power. The platform favors bimetallism and believes in the use of gold and silver as money metals upon a parity of values with complete inconvertibility under such legislation as shall make the purchasing and debt paying power of any dollar coined or issued by the United States absolutely equivalent to that of any other dollar so coined or issued. The payment of liberal pensions to soldiers and sailors was favored and the present administrations of the policy toward Hawaii condemned.

Party Conventions.

SPRINGFIELD, Ill., July 25.—The Republican State Convention met this morning. Ex-Governor Pifer was made Permanent Chairman.

MILWAUKEE, July 25.—The Republican State Convention is in session here. It adopted a platform ascribing the recent disturbances of the policy of the Democratic Administration. The platform recognizes the right of laborers to organize, using all honorable measures for the purpose of signifying their condition and placing themselves upon an equal footing with capital. The money plank says: "We are unalterably opposed to any scheme that will give to this country a debased or depreciated currency. We favor the use of silver as currency to the extent only that it can be circulated on a parity with gold."

DES MOINES, July 25.—The Iowa State Republican Convention convened here this morning.

HUTCHINSON, Kas., July 25.—The Populist Congressional Convention to-day renominated Jerry Simpson by acclamation.

A Tragedy at Los Angeles.

LOS ANGELES, July 25.—To-night John Craig, an ex-police officer, shot and killed his father-in-law named Hunter, also his mother-in-law and shot and fatally wounded his brother-in-law, George Hunter. He then made an unsuccessful attempt at suicide.

The Death of a Veteran.

HILLBORO, O., July 25.—Captain Erskine Carson died here to-day. His death was due to a bullet wound received in the battle of Bull Run. Captain Carson was the author of the famous dispatch to Governor Foraker, asking the latter not to surrender any rebel flag while he was Governor.

Debs and his Associates Give Bail.

CHICAGO, July 25.—Debs, Howard, Kehler and Rogers, after a lengthy conference with their attorneys, decided this afternoon to give bail. William Skakell and William Fitzgerald appeared as bondsmen, and the four men were released.

Arrested by the Regulars.

Two men were arrested yesterday afternoon by the United States officers on suspicion of being implicated in the shooting of the Corporal at Ogden. It is said that one man has been arrested at Wadsworth. The regulars are keeping a close watch for the individuals and it is hoped that the guilty ones will be captured.

Geo. O. Switzer of San Francisco will ship a car-load of horses to-day. Mr. Switzer has a horse market in the city.

"For Years,"

Says CARLIE E. STOCKWELL, of Chester, N. H.: "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came suddenly, at any hour of the day or night, lasting from thirty minutes to half a day, leaving me suddenly, but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."

## THE CARSON "NEWS" INQUIRIES

A Citizen of Reno Answers Them.  
EDITOR JOURNAL:—Please allow me to reach the Carson News through your column as follows: H. H. Beck.

To the Editor Carson News:—In your issue of July 22d you seem to take a kindly interest in the welfare of your neighbors, the public of Reno, and by way of finding out our true condition, you propose a number of queries, presumably to get facts upon which to form an opinion as to the true inwardness of the causes leading up to the unhappy condition of affairs as now existing among our usually quiet and well behaved people. As a basis for such questions you refer to editorials appearing in the Reno Evening Gazette which seemed to sanction the action of President Cleveland in promulgating orders which in effect places the people of Reno under martial law, to be enforced by a squad of Regulars of the standing army of the United States. What these rules or instructions are it seems impossible to find out as no order of Colonel Poland, in command of the Regulars, has been openly promulgated. I am informed that the Colonel has repeatedly told some of our people that he had full instructions and orders as to what he should do with our people. Evidently these orders are satisfactory to Lord Huntington and his henchmen in Reno, including the Gazette man, who so promptly surrendered and admitted himself a "subject of the power now holding this community as a conquered province." But I will now try to answer your queries seriatim, for I note that they are all founded on the presumption that the laws of our country, either State or National, have been broken or are disregarded, and for that reason the military power of the Government has been invoked. Mr. News let me assure you your suppositions are all as nothing.

The people of Reno are as ignorant of the reason for quartering regular soldiers among them as the man in the moon. A few may know why or by whose command this new order of things has come about, but our citizens do not and if we take the word of the Gazette for it, we are only required to submit to Colonel Poland's orders, or have ourselves to blame. First you ask: "What were the unlawful acts previous to the President's proclamation?" My answer is that there were no acts of lawlessness in or about Reno for weeks and months, scarcely even a common drunk. But I find that in answering your first question in this way, that it necessarily precludes any direct answer to your succeeding queries. To ask the cause of a riot when there was none is as easily answered as the next one, which is as to the effort made by the local officials to suppress it. No doubt it will be hard for the News to comprehend how such things can be, but they are and the News will confer a never-dying favor on a long suffering community if it will persist in getting all the facts connected with this most dastardly perversion of the rights of American citizens. Very likely the News is pursuing its investigations along well established legal lines and presumes that what was done here during the last ten days came about under legal proceedings and through well established channels. Not so. No, it was reserved for Reno to learn that to oppose the arrogance of the S. P. company is treason not only to that corporation but to the Stuffed Prophet as well. The Gazette says the soldiers are here to see that the mails are carried, but I can't find out that the mails in Reno or Washoe County were ever interfered with by anyone. I am very sure that every man, woman and child will be willing to make affidavit that never in thirty years was there less danger to Uncle Sam's mails than during the last thirty days.

But Mr. News, notwithstanding all I have written, you still want to know how we ever got into this most objectionable condition. Frankly, I don't know. I have asked for reasons until my jaws are sore. Nobody seems to know. If anyone here knows he won't tell, at least won't tell me, so I give up the search for the causes of present conditions, or whence the authority for their existence. The reality is what confronts an insulted community. The soldiers are among us. Their coming was a menace; their stay an insult, while many of their acts while treating our people were lawless and contemptible. By some it is believed that the soldiers are here to assist the United States Marshal, who is directed by the U. S. District Attorney, who draws his inspiration from Washington. Others assert that Colonel Poland has full authority and that the Marshal and District Attorney are simply needed and used to intimidate our people.

Mr. News, you should have been here on Sunday morning, July 15th, when the army with banners came and took possession of our quiet burg. It being Sunday, many citizens were on the streets, quietly speculating as to this invasion by Uncle Sam's soldiers and wondering who in authority could have thought it necessary. But if our people looked for a picnic with the soldiers the expectation was soon dispelled, for it was evident at once that the army was fixed for blood. From their early actions, too, it was apparent that they had been made to believe our people were desperate and lawless, and were expecting a camp of Bashi Bazouks instead of intelligent American citizens. Soon after the army was landed at the depot the pompous form of the commander was seen to emerge from the crowd and march up the track on Commercial Row, where he passed a number of business men looking on

from a distance. After passing up some one of the party of gentlemen made some allusion to the ridiculousness of the occasion which caused a laugh. At once the officer returned and, facing the party, in a gruff voice asked, "What are you fellows laughing at?" When one of the gentlemen tried to explain that no insult was intended he was cut short with this most gentlemanly answer, "Well, you had not better laugh at me or I will plug you." This suggestion had the desired effect even though the term "plug," or plugging is not included in "Hardee's Army Tactics." Soon after this our citizens were made to feel the iron heel of the invader—judges, lawyers and laymen were pushed and prodded right and left. While this was going on a quiet citizen by the name of Johnson was halted by an officer who roughly inquired, "Where are you going?" Johnson answered in kind, when the doctory officer drew a revolver and commanded him to stand. Then, at a signal, six soldiers rushed up, each with a musket pointed at the alarmed citizen. Of course Johnson surrendered. But the climax was to come. The Colonel turned the prisoner over to two soldiers with the command, "Keep this fellow, and if he attempts to escape kill him!"

This is a few of the incidents of Lord Huntington's way of managing our citizens. Did Johnson merit anything so cruel? Did he transgress any law? No, he was merely walking where he had gone a thousand times before, perfectly unconscious of any wrongdoing whatever, but innocently passing the point where the dead line was afterwards marked, he is made to suffer a brutal arrest and is illegally held a prisoner for three hours under the direction to "kill him if he tries to escape."

Did Johnson have a trial? No. Was he informed why he was arrested? No. Was he allowed a chance to prove his innocence? No. Did Johnson have any rights that Huntington and his supes, including Attorney Wines, should respect? No, of course not. Johnson was simply a dog and his treatment simply an example of what our people may expect unless we admit that we are subjects of the dastards who would enslave us.

Such is a glimpse of martial law in peaceful Nevada. The quiet of our community is invaded by the soldiers of a great nation and joined here by the United States Marshal, who insults our people by threatening our citizens with an hundred deputies unless we meekly bow to the intimidations of the soldiery.

But this is not all. It is not simply the citizen who over-steps the imaginary dead line who is made to suffer. Secret espionage is doing its work. The informer is abroad and woe to him who thinks he can maintain an independent thought. Three of Reno's most worthy citizens were made to walk the gang plank. Did they transgress any law? No, but they had the manhood and womanhood to be free American citizens. The guillotine is in place. Seek ye this day whom you will serve. If the side of the arrogant power who menace our liberties, then walk forward and don the collar, else your friends may find your head in the basket.

How long our citizens will suffer without complaining I know not—as for myself, I am ready to protest now, and I do.

H. H. Beck.

## As a Health Resort.

Reno is fast gaining a reputation as a health resort. In less than a week no less than six families have arrived having at least one member in each family in search of health. They have come here for this purpose alone, having been advised to locate here, at least for a time. Three of the parties are from the beautiful city of Oakland, where many invalids go from the mountains and neighboring cities, believing that Oakland cannot be beaten in this respect, yet residents of that city are hearing of the health-giving properties of our climate. The reputation of Reno in this particular is spreading, and everyone who goes from here—benefitted will assist the good work.

## Prefers It to a Pullman.

Yesterday morning when the V. & T. arrived at Steamboat, Conductor Bray discovered a tramp sitting on the rods over a car truck under a passenger coach. The conductor approached him quietly and found the gentleman comfortably seated and braced, complacently reading a book, and seemed as unconcerned as if reclining in a first class coach. It is needless to say that Jerry bounced him unceremoniously.

## Central Committee Meeting.

A meeting of the Central Committee of the People's party of Washoe county will be held at the office of T. V. Julien next Saturday evening at 7 o'clock. Members of the Committee are B. F. Loete, R. S. Osburn, Richard Ryland, G. E. Holesworth, J. E. Southeran, T. A. Reed, Brooks McGlane and R. C. Moore.

## Inconsistency.

Give an Indian a twenty dollar gold piece and just as soon as he can reach a post trader he converts his gold into silver dollars. An Indian has no use for gold.

## He is a true American.

Still, in the face of all this, the Government takes gold to the frontier to pay the Indians—"because silver won't circulate."

## What inconsistency!—Exchange.

Theo. Winters shipped ten car-loads of sheep west yesterday. They have been delayed here since the strike.

## An Open Letter.

Having purchased the well and favorably known business of Mr. R. C. Wills we take this manner of informing the many patrons of the store, our friends and the public in general that we shall conduct the business the same as heretofore. This store has long had the reputation, and justly, of being the cheapest place in the city to trade. We are in every way able to keep up its record. Ours is a cash store; we buy for cash and sell for cash; we do our own work, our rent is low and our customers get the benefit. We carry a full line of everything found in a first-class store. Our line of groceries and provisions is complete and choice. We can fill an order for anything in the hardware line. Sportsman's goods we make a specialty of. We carry a complete stock of loaded and empty shells, all gauges and loads. If you anticipate a trip to the mountains come and get your prices in fishing tackle. We carry a large stock of boots and shoes of all sizes and grades, which we will sell you at from 30 to 50 per cent less than you can purchase them elsewhere in town. We want your patronage and if we can obtain it by giving you the benefit of exceeding low prices on first-class goods, by courteous treatment and prompt attention to your orders it is ours. Come and get our prices and satisfy yourselves that you can save money by trading with us.

Respectfully,

BEALT & BIRD,  
Successors to R. C. Wills.

## About Town.

The town has resumed its usual quiet and business is going on in its customary form.

The subject of "the strike" has been supplanted by the quantity, price and probable sale of the crops which are now being cut and gathered.

Traffic is gradually resuming its ordinary condition, and the coming in and going out of trains receives about the same notice as before the strike. The groups and small crowds of persons that could be seen a week or two ago have disappeared and only something of an unusual character will draw a crowd.

The bitterness of a week ago seems to have passed away, and as all such things go, a few day more and it will be only a matter of history. Politics will soon be on, and this will doubtless occupy the attention until towards winter, and then the rustle for wood and grub will begin.

H. L. Connor and mother of Hawthorne are visiting in Reno. Mrs. Connor is here to meet her daughter, Miss Mattie, whom she expects to arrive from San Francisco to-day.

Attorney General Torreyson arrived from Carson last night and will remain here during the week.

## Dyspepsia

Mrs. Judge Peck Tells How She Was Cured

Sufferers from Dyspepsia should read the following letter from Mrs. H. M. Peck, wife of Judge Peck, a justice at Tracy, Cal., a dweller connected with the Associated Press.

"By a deep sense of gratitude for the great benefit I have received from the use of Hood's Sarsaparilla, I have been led to write the following statement for the benefit of sufferers who may be similarly afflicted. For 15 years I have been a great sufferer from dyspepsia and heart trouble.

Almost everything I ate would distress me. I tried different treatments and medicines, but failed to realize relief. Two years ago a friend revealed upon me the fact that Hood's Sarsaparilla was the only remedy for my condition. The first bottle I noticed helped me, and I continued taking it until I felt so much better that my friends spoke of the improvement. I have received such great benefit from it that
